## FINANCIAL AND COMMERCIAL.

FRIDAY, May 29—5 P. M.

The gold market was heavy during the early part of the day, and after opening at 139% it declined to 139%, but from this point it reacted to 139%, and the latest transactions prior to the adjournment of the board were at this price, following which there was a further advance to 139% a 139%. The decline of the morning was mainly owing to the advance in five-twenties abroad; but the steady outward drain of appecie for some weeks past is favorable to frances. There was a moderate borrowing demand for coin, and loans were made without interest and at 1 a 3 per cent for carrying. The gross clearings amounted to \$40,654,000, which shows that the volume of business yesterday was about double the usual average of late. The transactions to-day were also large. The gold balances were \$1,633,187 and FRIDAY, May 29-6 P. M. al average of late. The transactions to-day were large. The gold balances were \$1,633,187 and currency balances \$2,384,042. The shipments specie to-morrow will, according to the unit already entered, exceed a million. The consions of seven-thirty notes at the Sub-Treasury tinue large, those made to-day aggregating 5,829,960. American sliver is quoted at 6 a 7 per ent below gold, and Mexican dollars are in limited

here is no change to note in the condition of the key market, the supply of loanable funds being access of the demand at five per cent on call, many instances four is accepted, the lead-alers in government securities being amply d at this rate, and in some instances balances e left with them at three. There is no increase in the supply of commercial paper, and the best grade are market was active during the day and at interrais excited. A very buoyant feeling prevailed in the morning and prices advanced, Eric, New York Central and Reading still leading the upward movement; but at the first regular ard there was a relapse under considerable des to realize profits, and in the afternoon there prices to close lower than at the opening. The feel-ing of the street is bullish, but the "short" interest n the market having been almost entirely covered, he latter is without that element of support.

The Rock Island contest is being conducted with who look forward hopefully to the result of the elec-tion at Chicago on the 3d proximo. The main question involved in the present controversy is whether the latter, who have been unable to secure an ce the reorganization of the company in 866, are to be again deprived of the right of select their own directors. It is not denied there has been no election in the inter-nor that the directors intend that annual meeting and election shall be deferred for another year. They claim that they have authority to defer the election and so extend term of office in the act of the lowa Legislature, clares that no election shall be held until ne. 1869. The stockholders, on the other hand, of which is that the Rock Island Company is an Illiorporation, and therefore not subject to be thus that, as they allege, the act was procured by mis-representation and corrupt means. The stockdesire to present this question to a competent tribunal for settlement, and to this end have called the meeting and given notice r intention to hold the election on the date ned at Chicago, the time and place being pecified in the original charter of the corporation. The question arises, is there anything wrong or improper in this, and how otherwise can the case be presented to the courts for final adjudication? If he election is invalid no one will suffer beyond the tockholders, who will have devoted their time and neans to a fruitless purpose, and they ask who can ightly object to their holding the election with a lew to submitting the title of their elected candi-

ture referred to is valid; but as they are directly in-rested in the result of their own decision they canwed to be judges in the matter. The stockhave already secured a decision from the corporation is not subject to the control of the Legislature of Iowa exclusively, for the reason that rporation was originally created under the of Illinois and is still domiciled in that of lilinois and is still domicined in that The decision of Judge Cardozo alluded a based upon and sustained by several ons, one of which was rendered by the me Court of the United States. The of the stockholders is therefore not only ble, but would seem to be well founded, and the right of the stockholders to choose there own directors annually ought to be beyond dispute. The charter of the committee representing the stockholdshould inspire confidence that the task committed to them has been honorably undertaken, and that only just means will be employed to secure the desired object. The stockholders, as the owners

the desired object. The stockholders, as the owners of the property, are entitled to select those by whom it shall be managed, and it is to be hoped that in this they will be successful.

At the commencement of business the stock market was strong and active, and at the early session of the open board prices were higher than at the close last closed 1% lower than at the same time yesterday, Cleveland and Pittsburg %, Cleveland and Toledo %, Cleveland and Pittsburg & Cleveland and Toledo & Rock Island 1% Northwestern 1% do. preferred % Milwaukee and St. Paul preferred % Ohlo and Mississippi & Quicksilver % Canton % and Western Union Telegraph % while New York Central was 1 lower, Erie % Michigan Southern & Fort Wayne 1% and Pacific Mail % Government securities were strong, ten-forties excepted, at an advance of % a % per cent. Ten-forties were % lower. Missouri sixes advanced 1% At the open board at one o'clock railway shares were higher, Erie selling at 72%, but Pacific Mail declined to 95%. At the second regular board the improvement was not fully sustained, and Michigan Southern closed % lower than at the first regular board, Cleveland and Pittsburg & Gleveland and Toledo % Northwestern preferred % Fort Wayne and Toledo ¼, Northwestern preferred ¾, Fort Wayne ¾, Milwaukee and St. Paul ¼, Ohio and Mississippi ¾, Pacific Mail ¼ and Quicksliver ¼, while Erie was higher and Northwestern %. Government securities were % a % per cent lower, but active under sales to realize. At the open board at half-past three prices were a fraction lower in some instances, Eric selling at 71% and New York Central at 133%. During the remainder of the afternoon the market underwent no material change, and at the close at six o'clock the following were the quotations:—Pacific Mail, 98 a 95%; Ohio and Mississippi, 39% a 31; Western Union Telegraph, 38% a 38%; New York Central, 133% a 134; Eric, 71% a 71%; Reading, 94% a 94%; Michigan Southern, 88 a 88%; Cleveland and Pittsburg, 87% a 87%; Rock Island, 97% a 97%; Northwestern, 68% a 68%; ditto preferred, 79% a 70%; Fort Wayne

Government securities have been very heavily Government securities nave the forenoon prices dealt in during the day, and in the forenoon prices dealt in during the day, and in the forenoon prices experienced a further advance, ten-forties except which at one time declined to 105, the depress which at one time declined to 100, the depression being evidently due to artificial causes. At this point, however, there were large buyers, and a recovery to 105% was the result, these being rela-tively lower than any other exportable bonds on the list, as they are quoted at only about two per cent below five-twenties of 1882 in London. The latter have advanced to 72%, but they failed to respond to the improvement on this side, partly in consequence of the decline in the gold premium. The demand for all the stocks, both for investment and on speculation for a rise, continues undiminished, and the indications favor further considerable improvement, especially in the foreign quotations for five-twenties and tengrides. The market closed strong at the subjoined prices:—Registered, 1881, 115% a 115%; coupon, 1881, 116% a 116%; 5-20's, registered, 1882, 108% a 108%; 6-20's, coupon, 1802, 111% a 111%; do., 1864, 109% a 109%; do., 1805, 109% a 109%; do., 1805, 3anuary and July, 111% a 111%; do., 1867, 111% a Banuary and July, 111% a 111%; do., 1867, 111% a 111%; 10-40°s, registered, 105% a 105%; 10-40°s, coupon, 105% a 106%; June 7.30°s, 100% a 100%; July 7.30°s, 100% a 100%; August compounds, 1865, 118%; Beptember do., 117%; October do., 117%.

The foreign exchange market was quiet under a limited demand for bills. The supply of cotton and

produce bills is light, but there are a few offering for moderate amounts drawn against shipments of tenforties. Bankers' bills on England at sixty days were quoted at 110% a 110%; at three days. 110%; commercial bills, 109% a 109%. Bills on Paris at sixty days, 5.13% a 5.12%.

Consois and American securities were quoted thus in London to-day and on the previous dates mentioned:—

THE HORSE MARKET.

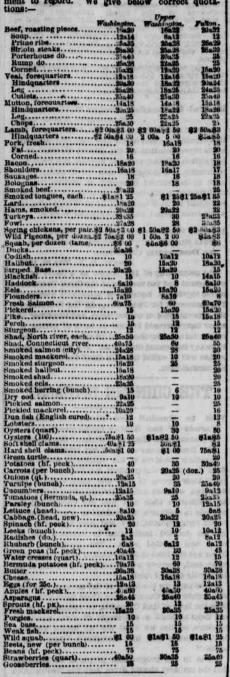

The sale at the Auction Mart of Messrs. Johnson & Van Tassell yesterday, the only one occurring, was characterized by a large and select attendance, composed largely of business men, the usual congregation of speculators and persons of that ilk being conspicuous by their absence. The stock offered was choice, comprising some first class teams, roadsters and saddle horses, and the bidding was unusually spirited throughout, evidencing more earnestness and purpose than at any previous sale this season. The usual terms of sale, "we hold the money of the purusual terms of sate, "we hold the money of the purchaser twenty-four hours as a guarantee of good faith on warrantees," was announced by the auctioneer to the evident satisfaction of the company, who, accepting this assurance of protection, became immediately interested, and as a consequence ied of with the most gratifying abandon in their bids, to the eminent success of the sale. We note the following as the result:—

BY JOHNSTON AND VAN TASSELL.	12
A black horse, los hands high, eight years old	44
A bay mare, 15 hands bigh, nine years old 1	M
A gentleman's turnout, comprising a chestnut sorrel	
horse, 16 hands high, seven years old 2	ġ.
	24
An elegant dark bay horse, Hiram Drew stock, low hands	
high, eight years old, warranted sound 2	26
The well known trotting horse Gray Harry, long tail and	702
mane, 15 hands high, nine years old 8	ы
A very inepair of bay mares, 15% hands high, six and	
seven years old, warranted sound, kind and true 6	60
A superb steel gray team, horse and mare, of Messenger	
stock, 16 hands high, six and seven years old 7	30
A black coupe or carriage mare, 15% hands high, six	
years old, long mane and tail, warranted sound 2	60
A sorrel chestnut thoroughbred horse, by imported Lang-	
ford, dam Trustee, 15% hands high, seven years old,	ú
warranted sound	40
A black coupe, truck or cart horse, 16% hands high, seven	ŭ,
years old, warranted sound	80
A very fine black mare, 15th hands bush, seven years old,	2
warranted sound	78
A stylish bay horse, 16 hands high, nine years old 2	Lõ
A bay borse, 10% hands high, nine years old, warranted	
sound 2	10
Besides the above a number of business and wor	Ŀ
horses were disposed of at fair prices and a lars	

assortment of carriages, wagons, harness, &c., among which was a dog cart, in good order, which brought \$300. The principal feature of the market at present is the autoripated sale amounced for next Tuesday, by this firm, of the private stable of the Baron de Boilleau, French Consul at this port, which is apparently a subject of considerable interest among "horse" men.

FAMILY MARKET REPORT.

There is not much to be said respecting the market this week different from those which were its main features at our last quotation. The general tone is firm and steady, the changes being so slight as scarcely to deserve special note. The coarser kinds of meats have declined slightly owing to the close atmosphere prevailing being unfavorable to their preservation. Butter and eggs are somewhat lower and vegetables easier. Fruit is not in very good supply and for wint, is offered, is high. Fish is without change, with the exception of shad, which are nearly out of season. Otherwise we have nothing of moment to repord. We give below correct quotations:—

UNITED STATES SUPREME COURT.

The Admiralty-Sale of Ship by Master Dur-ing Voyage-When Authorized Important to Ship Owners.

Charles Fitz, Appellant vs. The Galiot Amelie,— Appeal from the Criminal Court for the district of

fassachusetts. Mr. Justice Davis delivered the opt court:—The Amelie, on her voyage from Surinam to Boston encountered perils of the sea, and was obliged to seek the harbor of Port au Prince, Hayti, and was sold there at public auction by the master and pur-chased by Riviere, the claimant. The owner of the cargo, because of its non-delivery, filed the libel, and insists that the sale of the vessel was not justifiable, and passed no title to Riviere, the claimant, and even if the sale was proper under the circumstances that Riviere took the title subject to all existing liens. The principle of maritime law which governs this controversy is too well settled for dispute. Although the power of the master to sell his ship in any case, without the express authority of the owner, was formerly denied, yet it is now the received doctrine of the courts in this country, as well as in England, that the master has the right to sell in case of actual necessity. We are not called upon to discuss the of this court. The Patapsco Insurance Company vs

Southgate, 5 Peters, 420; the Sarah Ann, 13 Peters, 428; Post et al. vs. Jones et al., 19 Howard, 157. From the very nature of the case (the court says) there must be this implied authority of the master to sell. The injury to the vessel may be so great and the necessity so urgent as to justify a sale; and, under such circumstances, the master becomes the agent of all concerned, and is required to act for their benefit. The sale of a ship becomes a necessity within the meaning of the commercial law when northing better can be done for the owner or those concerned in the adventure. If the master on his part has an honest purpose to serve those who are interested in ship and cargo, and can clearly prove that the condition of his vessel required than to sell, them he is justified. As the power is liable to abuse it must be exercised in the most perfect good faith, and it is the duty of courts and juries to watch with great care the conduct of the master. In order to justify the sale good faith, and in making it and the necessity for it must both concur, and the purchaser to protect his title must be able to show their concurrence. The question is not whether it is expedient to break up a voyage and sell the ship, but whether there was a legal necessity to do it. If this can be shown the master is justified otherwise not. And this necessity is a question of fact to be determined in each case by the circumstances in which the master is placed and the perlist to which the proporty is exposed. If the master can within a reasonable time consult the owners he is required to do it, because they should have an opportunity to decide whether in their judgment a sale is necessary; and he should never sell when in port with a disabled ship without first calling to his aid disinterested persons of skill and experience who are competent to advise, after a full survey of the vessel and her injuries, whether she had better be repaired or sold. And although his authority to self does not depend on their recommendation, yet, if the receast of all parties concerned in the adventure, had no airemative but to seil. In the face of it, had he proceeded to repair his vessel, he would have been cuipable. Being in a distant port with a disabled vessel, seeking a solution of the difficulties surrounding the firm at a gazat distance from his owners, with no direct means of communicating with them, and had no direct means of communicating with them, and he will be surrounded to the surrounding them to direct means of communicating with them, and he will be surrounded to the surrounding them to direct means of communicating with them, and he direct them to direct means of communicating with them, and he direct them to direct means of the surrounding them.

AN UNUSUAL VISITOR.—A full grown seal of the amail sea dog species was shot through the neck in Cocheco river, at Dover Landing, about nine A. M., Monday, 25th instant, by Captain William Drew, late master of the packet Pactory Girl, which piles between Dover and Portsmouth. The frightened stranger, not liking such an unwholesome reception, dropped into the water and swam therety or forty rods before he was overtaken and captured with boathcoks by Cantain George Drew and George Var-

ney, who followed in a small stdr. His scalable lived an hour before "shuffling off this mortal coil," measured five feet and three inches "from snout is stern," weighed 134 pounds and yielded four gallons of oil. Quite an excitement was created by the sudden déput of this unusual visitant and subsequent exhibition of his lifeless remains.—Boston Traveller, May 25.

MARRIAGES AND DEATHS.

MARRIAGES AND DEATHS.

Married.

BARRR—Corwin.—At the Washington Square Reformed enurch, on Thursday evening, May 28, by the Rev. M. S. Hutton, D. D., John T. Barre to Hiller A., daughter of Wm. S. Corwin, Esq., all of this city.

Bogers—Powell.—On Tucsday, May 29, at Mount Pleasant, Westchester county, by the Rev. Mr. Culver, of Fishkill, Mr. Timothy N. Boger, of Quoene county, L. L., to Miss Estrella A. Powell, of the former place. No cards.
